

Mission Statement

Our mission is to provide students with a comprehensive education that meets each student's individual learning style while fostering a passion for learning, a strong work ethic, and preparing them for future endeavors beyond high school.

Program Overview

The **REACH Program** is geared toward students, grades 9-12, who struggle to learn in a traditional classroom setting and is dedicated to educating the whole student. Academic areas are integrated through a functional life skills curriculum and correlate to the Common Core Standards. This differentiated teaching style provides students with the opportunity to develop not only academically, but also enhances their social and employability skills. Through experiential learning and sociolinguistic activities, students are building imperative skills in a variety of academic and social areas. The **REACH Program** incorporates **Community Based Instruction** and **Career Development** to assist students in preparing for life after graduation. Through **Job Sampling** within the school building, students will be better prepared for work experiences within the community. In addition, students may be offered the opportunity to participate in a **Structured Learning Experience** with the support and guidance of an experienced job coach.

Job Sampling Activities

- Photography
- Journalism and Production
- Culinary and Catering Skills
- Assembly and Production
- Landscape Architecture and Design
- Office Management

Structured Learning Experiences

- Maintenance and Janitorial Skills
- Food Bank
- Restaurants
- Salons
- Retail Stores
- Hospitals

How to Enroll

Students are referred to **REACH** by their district case managers. The case managers submit student records for review by the admissions staff to determine the appropriateness of our program for the student. If the student appears to be a good candidate, an intake interview is scheduled with the student, the parent(s) or guardian, and a representative from the district.
